PROFESSIONAL SUMMARY

Motivated Information Technology undergraduate at the University of Moratuwa with hands-on experience in cross-platform mobile application development using Flutter and Dart. Skilled in building responsive UIs, implementing state management, integrating REST APIs and Firebase, and ensuring real-time and offline functionality. Experienced in leveraging AI tools and Python for intelligent features such as predictive analytics. A fast learner with a proactive, problem-solving mindset, committed to delivering high-quality, scalable software in collaborative team environments.

TECHNICAL SKILLS

- **Tools:** Android Studio, Visual Studio Code, Git, GitHub, Postman, Chrome DevTools
- **Programming:** Java, Python, C#, Dart, PHP, JavaScript, java.
- **Frameworks & Technologies:** Flutter, Node.js, React JS, Express.js, HTML5, CSS3, Bootstrap.
- **Databases:** MySQL, Firebase.
- **Methodologies:** Agile, SDLC, STLC, Object-Oriented Programming (OOP), REST APIs.

EDUCATION

Bachelor of Information Technology
University Of Moratuwa.

Nov 2022 - 2026

GCE Advanced Level

H/Debarawewa Central College

Apr 2019 - 2021

- Advanced Level in Technology Stream

SOFTWARE PROJECTS

Mobile-Based Centralized Healthcare System (Final Year Project)

- **Multi-Role Ecosystem:** Engineered a unified platform supporting 6 distinct user roles (Patient, Doctor, Admin, etc.) with secure role-based access and real-time data sync.
- **AI-Driven Diagnostics:** Integrated a machine learning module using TensorFlow for predictive health analysis and automated generation of clinical health reports.
- **Digital Prescription & Telemedicine:** Developed an encrypted Digital Prescription system and low-latency audio/video consultation features using WebRTC.
- **Workflow Automation:** Streamlined patient check-ins by building a QR-based identification system and an automated Queue Management module.
- **Real-Time Notifications:** Implemented Firebase push notifications for appointment reminders, queue updates, and health alerts.
- **Data Integrity:** Managed end-to-end medical record lifecycles, ensuring high accuracy in appointment scheduling and patient data management.
- **Tech:** flutter, firebase, node.js, WebRtc, TensorFlow

BMI & Food Recommendation App (Flutter)

- Developed a cross-platform mobile application using Flutter and Dart for Android.
- Implemented BMI and BMR calculation, personalized meal recommendations, and food tracking features.
- Designed interactive and responsive UI/UX using Flutter widgets and state management.
- Integrated search, filters, and dynamic lists to improve user experience.
- Focused on clean code, modular structure, and scalability for future features.
- Learned to manage data models, user input, and app navigation effectively.

Movie Discovery App (flutter)

- Developed Movie Discovery App using Flutter, Dart, and Provider
- Integrated OMDb API to fetch movie data (search, popular movies, details)
- Implemented state management with Provider for reactive UI updates
- Added filters (rating, release year) and recent searches feature
- Handled loading states, API errors, and offline mode gracefully
- Designed responsive UI optimized for mobile and tablet
- offline

Inventory Management & POS System

- Core Functionality: Built a robust Point of Sale (POS) system for a floral business, implementing full CRUD operations for inventory and automated bill payment processing.
- Data Integrity: Focused on precise database management using MySQL to ensure zero discrepancies in stock levels and financial records.

E-commerce Web System (Chocolate Shop)

- User Journey Testing: Developed a user-friendly platform featuring role-based access, complex "add-to-cart" logic, and secure user registration.
- Responsive Design: Ensured cross-browser compatibility and seamless navigation using PHP, JavaScript, and CSS.
- Tech Stack: PHP, MySQL, HTML, CSS, JavaScript.

SOFT SKILLS

- **Analytical Thinking:** Strong ability to identify defects and analyze complex business logic.
- **Collaboration:** Experienced in working within academic group projects and cross-cultural communication.
- **Adaptability:** Fast learner with a "tinkering and experimentation" mindset, ready to grow in dynamic environments.
- **Communication:** Able to clearly share ideas and work with team members
